

First off, I want to congratulate you on your new arrival. This may not have been the place you thought you were going to be, but it is indeed a great place! Our son Cole, was born on October 31, 2006. He has two older sisters, Jodi and Rylee . He wasn't diagnosed with Down syndrom until after his birth.

Although we were shocked to get the diagnoses, it was never a tragedy. Everyday he brings more smiles into our family than we could ever imagine. He continues to grow and develop like all other children, only slower. Why do we need to be in such a hurry anyway. For me it has been great. Kids grow up so fast, and with Cole I have been able to enjoy having him be little longer. He is now three and all boy. He loves his Dad, trucks and balls. He is a very social little boy who shares a lot of smiles.

We look forward to watching him continue to grow and progress. I am sure there will be many tears and heartbreaks, but will there be more for him than for our girls? I don't think so. He is a child first. He just happens to have Down syndrome. We have great expectations for him and so far he is keeping up and even surprising us.

We hope you enjoy your baby as much as we have. If you ever need anything we would love to help!
